Suggested Improvement / Room for Development	Teachers can refer to the instructor's game design to continue physical training activities with children at school, and may also adjust the difficulty level to suit children of different age groups.			There is a water play area inside the venue. Although vests are provided, it's recommended to bring a long-sleeved apron or arm covers so children can explore the water more freely.			As the venue can be crowded, it is recommended to arrange parent-child visits for better care of the children. Guided tour services can also be requested to gain more information.

Suggested Improvement / Room for Development	The school arranges annual dental check-ups and the “Bright Smiles for the New Generation” home-school dental care program. These three activities can be scheduled within the same month to deepen children's understanding of the importance of dental health.			Teachers can work with children to design thank-you cards for firefighters to express their appreciation.			Children rarely have the chance to engage in activities like ziplines, climbing walls, slacklines, and suspended climbing. It is recommended to continue arranging such activities in the future so they can experience different types of physical play.
